FRACTURED PRUNE

fracturedprunenj

HOW THE FRACTURED PRUNE GOT IT'S NAME

When Tom Parshall purchased Josh's 46th street market in 1976 in Ocean City, Maryland, he was thinking about a new name for his enterprise. Several friends gave suggestions, but he felt they all lacked imagination and individuality.

While reading through the abstract of the land he bought, an unusual name caught his eye. In the late 1800's, a woman named Prunella Shriek had owned much of the land in the area. Tom didn't think too much about it until one day he was browsing through the Baltimore library and came across a book titled "Ocean City Lore." As he looked through it, he was thrilled to see Prunella Shriek's name, with a paragraph devoted to her. Even though she was in her seventies, Prunella was the only woman who competed with men in traditionally man's sports, such as ice skating races, and skiing competitions. She was an excellent tennis player and was county ping pong champion circa 1895. Being older and somewhat brittle, she often returned from some of the more vigorous competitions in a wheel chair or crutches. Thus the townspeople began to lovingly refer to her as "Fractured Prunella."

Tom read this and decided he would name his new enterprise after this wonderful and spunky old lady and call it Fractured Prune. In 2010, our family licensed the rights to bring the Fractured Prune to the Jersey Shore because Fractured Prune donuts were the best donuts we ever experienced... and we love our donuts! We are family run business with all our children being part of running the day to day operations. We are grateful that our fans allow us to be part of their vacation experience at the Jersey shore year after year.

Chaikhana Chai

ABOUT OUR CHAI Chaikhana Chai, located in Malvern, PA, brews hand-selected ingredients together in a unique micro-brew process. Premium quality large leaves of fair-trade and organic tea, sliced ginger root, fresh crushed spices, vanilla beans and honey are carefully combined to ensure a rich infusion of flavor and provide the healthful benefits that real ingredients can offer.
